LL.M. IN ENVIRONMENTAL LAW, ENERGY & CLIMATE CHANGE
Environment is defined in the *Environment (Protection) Act, 1986* as that which ‘includes water, air and land and the interrelationship which exists amongst and between water, air and land and human beings, other living creatures, plants, microorganisms and property.’ Environmental Law, thus, encompasses a wide spectrum of different forms of life and its interplay with the natural conditions and surroundings. It has within its purview, control and correction of environmental pollution. Negative fallout of rapid industrialisation, urbanisation, and now globalisation, is sought to be protected in a proactive manner through preventive measures and in case of damage to be compensated through remedial measures.

Humanity has lived amongst nature far before than there have been laws to protect the environment. However, our unsustainable practices coupled with our growing requirement for natural resources has led us to a point that the natural surroundings now require protection for the very humans it helped nurture.

United Nations Conference on the Human Environment (Stockholm Conference) marked a significant shift in international environmental perspective. With the idea gaining more acceptance, legal protection for air, water, forests, wildlife and ecosystems developed in many parts of the world. The enactment of the Environment (Protection) Act, The Air Act, Water Act, Forest (Conservation) Act and the Wildlife (Protection) Act, brought with them a positive shift in India’s environmental outlook and created a new field for legal practice.

Environmental Law is now an integral part of any project, initiatives and services, taken up by businesses, NGOs and governments across the world. It helps create regulatory structures for environmental management and helps manage, suppress, control, and limit detrimental environmental impacts.

Most importantly, it encourages and fosters environmentally conscious attitudes and behaviour.

**ONE OF THE BEST WAYS TO TACKLE ENVIRONMENTAL ISSUES IS TO STRENGTHEN THE HUMAN RESOURCE POOL BY CREATING EFFICIENT ENVIRONMENTAL LAWYERS. IN THIS CONTEXT, CENTRE FOR ENVIRONMENTAL LAW (CEL), WWF INDIA IN COLLABORATION WITH CENTRE FOR POST GRADUATE LEGAL STUDIES (CGPLS), JINDAL GLOBAL LAW SCHOOL (JGLS), O.P. JINDAL GLOBAL UNIVERSITY (JGU) IS OFFERING AN ACADEMIC PROGRAMME TITLED ‘LL.M. IN ENVIRONMENTAL LAW, ENERGY & CLIMATE CHANGE’.

The LL.M. programme covers subjects like Environmental Law, Energy and Climate Change and will benefit law graduates who would like to develop specialist legal knowledge to tackle global challenges such as climate change and energy access. The energy component will include legal and technical aspects of the entire gamut from the mining of raw materials to generation (in case of electricity), transmission and distribution. Similarly, law professionals working in the field of environment will benefit from a specialized Masters Programme in Law which will enhance their knowledge in the field to help build their existing career.
PROGRAMME OBJECTIVES

The course is the first of its kind in India and has the following objectives –

1. To study environment & climate change through the prism of law and relevant institutions with the objective of promoting sustainable development.

2. To study the role of law and legal institutions in the field of environment, energy access & climate change as well as its evolving relationship to public policy development and good governance.

3. To study the relationship between domestic and international law in the field of environment, energy and climate change and how multilateral institutions and climate negotiations are affecting and impacting both domestic and international law and policy.

4. To study the role and impact of domestic and international adjudicatory mechanisms on environment, energy and climate change through a critical examination and assessment of national environmental courts and tribunals.

5. To study the role and impact of dispute resolution mechanisms in the field of environment, energy & climate change. Further examine issues related to compensation, mitigation as well as other available remedies for damages relating to the environment.

6. To study and analyse alternate energy solutions, innovations and available technical knowledge in the field of environment, energy and climate change.

7. To study the impact of Climate Change on people and places as well as examine prevailing environmental laws, principles, solutions and climate adaptation strategies across the world.

VISION

THE LL.M. PROGRAMME IS DEVELOPED TO INTEGRATE INDIAN AND GLOBAL PERSPECTIVES ON ASPECTS OF NATIONAL & INTERNATIONAL ENVIRONMENTAL LAW, CLIMATE CHANGE & ENERGY, AND EMPHASIZES ON INTERNATIONAL, TRANSNATIONAL AND COMPARATIVE APPROACH TO STUDY THE SUBJECT.

AIM

THE PROGRAMME AIMS TO EQUIP STUDENTS WITH SKILLS FOR GLOBAL RESEARCH ENABLING THEM TO ADAPT, INNOVATE AND APPLY THEIR KNOWLEDGE TO NATIONAL AND INTERNATIONAL LEGAL ISSUES ON AREAS OF LAW.

ACADEMIC OVERVIEW

The One-Year LL.M. in Environmental Law, Energy and Climate Change consists of core/foundational courses (3 credits each) and specialised courses (2 credits) & (4 credits). The programme will have 28 credits which is as follows:

As an advanced degree offered at CPGLS, JGU, and CEL, WWF - India, the LL.M. programme is designed to represent outstanding academic achievement. The intensive curriculum provides a number of courses on contemporary topics in national, international and transnational environmental laws. Our teaching pedagogy is based on the assumption that students pursuing an LL.M. degree have a strong academic background and basic understanding of their speciality area. Many of our courses will be taught by leading scholars and accomplished international and domestic practitioners. We ensure high faculty-student ratio and better interactive learning atmosphere.

Other than the Core and Foundational courses to be offered in LL.M., the specialized courses will cover:

- **International Environmental Laws** - Interface between Environmental laws, Energy laws and Climate change: International Conventions, Global developments, Case study and solution based approaches.

- **Energy Laws and Policies** - Sectoral coverage, technical case studies and solution based approach.

- **Climate Change Governance** - Financing in the climate sector, technological innovations, alternate energy regimes, urban green living.

- **Renewable Energy Development in India** - Status, projections and prospects.

- **Adaptation to Climate Change** - Introduction and current global and national perspectives explained through case studies and on ground scenarios.

- **Field Study** - mandatory study tour to a conservation site which demonstrates implementation of laws and policies, best practices & sustainable living.

- **Environment Clinic** - The clinic will be dealing with transnational environment law which is a growing area of study within the broader context of environmental legal studies. A particular challenge of transnational environmental law is how transboundary environmental damage can be remedied.
The LL.M. in ELECC is beneficial for students who have the interest in or who wish to make a career change into the practice areas. The course not only focuses on the legal aspects, but provides an interdisciplinary perspective to it. The course provides knowledge of a wide range of issues that concerns environment and climate change, and it will provide a stronger foundation for those interested in advocacy and policy making.

The professors apart from theoretical knowledge, have the practical knowledge of how the subject is applied in the real world. My batch-mates were also those who have a passion for the environment which improves the quality and productiveness of classes. We also got an opportunity to visit Bharatpur Bird Sanctuary, thereby taking learning beyond classrooms.
Ms. GARGI SINGH

Enrolling in the LL.M. ELECC program has been a great learning experience. Those keen on joining the program should prepare themselves for an overall academic and practical enriching experience. The program will inspire and motivate an individual to gain and contribute to legal knowledge of various environment, energy, and climate change related problems. The course is woven around different legal disciplines giving it an inter-disciplinary shape. Interactive sessions with professors, professionals and policy makers has enhanced our legal knowledge and familiarized us with various topics. They left us pondering about the issues prevalent in the area while critically analysing and being solution oriented in our approach. The class assignments too encouraged ideas and solutions through collective participation of students and helped shape our legal opinions to different problems. Overall, I had an enriching experience by being part of this prestigious LL.M. ELECC Program.

Mr. TEJAS SINGH KAPOOR

The LL.M. ELECC offered by JGLS and WWF-India is a unique combination of environmental law, energy and climate change which is not found elsewhere and combines the efforts of two world-renowned organisations. The course structure ensures deeper knowledge into the three areas. It offers an international and national perspective through an inter-disciplinary approach. It does not solely focus on theoretical knowledge but ensures imparting of practical knowledge through the experience of experts in the field. Further, the evaluations process requires analytical thinking rather than adhering to the typical examination procedure. Apart from learning, it has created excellent interaction and networking opportunities with the experts in the field. WWF-India and JGLS have been supportive and provide opportunities beyond the general classroom learning. At the same time, interactions with the fellow students who have aligned interests in the field provides insight and motivation. Overall, the course offers an experience which would certainly further one’s career in the field.

Ms. VIVYA NAGPAL

This LL.M. ELECC course leaves you more responsible towards your natural surroundings and urges you to advocate the cause of saving nature. The hallmark of the programme is its interdisciplinary approach. We have had urban planners, conservationists, scientists’ addressing us which has given me a new perspective to my learning of law with its applied approach. Career wise, amazing opportunities lie ahead after the completion of the course, either in the capacity of researcher, consultant, environment lawyer or an academician. Armed with this degree, I see a huge opportunity to work towards making our earth a better place through the various possible roles.
Dr. SINGARAM KULANDAIVEL

The syllabus, the resource persons, the input quality and the method of teaching for the LL.M. ELECC is outstanding. The field trips along with teaching by experienced faculty members including former Supreme Court judges, practicing lawyers on national and international environmental issues is unmatchable. Regular interactions with them is one of the best parts of this course. I have personally enjoyed and am very happy with the course work and exposure.

Mr. RAUNAK RAJ TIWARI

I enrolled in LL.M ELECC because it's one of the program which provides you with great insight about the emerging policies in the field of environment and climate change from globally acclaimed faculties and legal luminaries. This course does not only limit its teaching to classroom exercises but gives student the exposure to have a field visit and explore emerging environmental issues & challenges. This course has definitely helped me in achieving academic excellence in the field of environment law & climate change.

Ms. ARUSHI MALIK

Opting to pursue my masters in Environmental Law, Energy and Climate Change by WWF and O.P. Jindal Global University has been one of the life-changing decisions for my career. The intense nature of the curriculum, exposure and care that I received from professors have played a critical role in uplifting my career. With the exceptional professors and a chance to connect with them has helped me in not only building upon my research skills but also in applying my learnings in the most analytical and critical manner.
Ms. SHIVANSHI GUPTA

Undergoing this course has been an eye-opening experience for various reasons such as to become aware of the contemporary environmental issues and ways to overcome them, the crucial role science plays to understand the environmental issues and how each individual can take actions to fight against climate change. The programme introduces us to the subject experts who introduces the unconventional ways to look at the environmental issues and their solutions. Thus, of many things that the program has to offer, becoming empathetic to the nature and the little things around you will always be the greatest of them all.

Mr. UDIT MALIK

LL.M. programme for me was the right programme at the right time. The way the programme is composed and the modules are designed, is very much suitable for people who are very committed with full time jobs however eager to join a master programme and get the degree. In addition, the combination of theory and practice in teaching plus local and international expertise in delivering the programme, made this programme different and unique. I am glad to be part of it and looking forward to seeing next batches joining the programme. Hopefully, after the completion of the course, I would be working towards improving the world we live in.

Ms. PRERNA

My growing concern towards the environment and the eagerness to do something about it, was the major reason why I enrolled for LL.M in ELECC. This course gives a much needed perspective on not only the legal aspect of environmental laws but provides an insight into the interdisciplinary approach required to understand the environmental issues.
ABOUT WWF INDIA

WWF-India articulated its mission in 1987 as:

“The promotion of nature conservation and environmental protection as the foundation for sustainable and equitable development.”

WWF-India is one of the largest conservation organizations engaged in wildlife and nature conservation in the country. Established as a Charitable Trust on November 27, 1969, it has an experience of over four decades in the field. From a modest beginning, the organisation was propelled forward by the efforts of its founders and associates who volunteered their time and energy to lend momentum to the conservation movement.

WWF-India, is recognized as a premier conservation international non-governmental organisation in the country dealing with nature conservation, environmental protection and development-related issues. At a time when the web of life has come under increasing threats, WWF-India’s attempts have been to find and implement solutions so that human beings can live in harmony with nature, and leave for future generations a world rich in natural resources and natural wonders.

WWF-India’s goal is the protection of India’s ecological security through the following broad programme objectives –

- Ensuring conservation of the country’s biodiversity, major ecosystems and critical landscapes.
- Minimising wasteful consumption and promotion of sustainable and wise use of natural resources by all sectors of society.
- Promoting the active involvement of rural and traditional communities in the sustainable management and conservation of natural resources.
- Working towards reduction in the sources and impacts of climate change.
- Minimising pollution, reducing the use of toxic chemicals and ensuring improved management of toxic waste.
- Promoting active participation of all sections of society in nature conservation and environmental protection through environmental education, awareness raising and capacity building.
- Ensuring that environmental principles are integrated into development planning, policy and practices.
- Promoting environmental governance through legislation, policy and advocacy.
- WWF-India has been working to promote harmony between human beings and nature for more than five decades.
- The organization is part of the WWF-family with 27 independent national organizations. The coordinating body, WWF International, is located at Gland in Switzerland.

ABOUT CENTRE FOR ENVIRONMENTAL LAW (CEL)

The Centre for Environmental Law (CEL) was established in 1993 as an integral part of WWF-India. Apart from handling and furthering WWF-India’s conservation work involving policy analysis, and campaigning. CEL serves as a resource centre for teaching environmental law and research in national, regional and international contexts. To implement its programmes, CEL is building functional and professional linkages with government agencies, private universities and non-governmental organizations at national and global level.

CEL in collaboration with JGU launched the LL.M. in Environmental Law, Energy and Climate Change. It is an all-encompassing course and aims to equip the students with environmental issues and research holding relevance at a global level. It enlarges perspectives on all the recent developments and new insights into the relationship between environment, development and sustainable growth.
ABOUT JGU

O.P. Jindal Global University (JGU) is a non-profit global university established by the Government of Haryana and recognised by the University Grants Commission (UGC). JGU was established as a philanthropic initiative of its Founding Chancellor, Mr. Naveen Jindal in memory of his father, Mr. O.P. Jindal. JGU is one of the few universities in Asia that maintains a 1:9 faculty-student ratio and appoints faculty members from India and different parts of the world with outstanding academic qualifications and experience. JGU is a research intensive university, which is deeply committed to its core institutional values of interdisciplinary and innovative pedagogy; pluralism and rigorous scholarship; and globalism and international engagement.

JGU has established twelve schools: Jindal Global Law School (JGLS); Jindal Global Business School (JGBS); Jindal School of International Affairs (JSIA); Jindal School of Government and Public Policy (JSGP); Jindal School of Liberal Arts & Humanities (JSLH); Jindal School of Journalism & Communication (JSJC); Jindal School of Art & Architecture (JSAA); Jindal School of Banking & Finance (JSBF); Jindal School of Environment & Sustainability (JSES), Jindal School of Psychology & Counselling (JSPC), Jindal School of Languages and Literature (JSLL) and Jindal School of Public Health & Human Development (JSPH). JGU has been granted "Autonomy" by the University Grants Commission and the Ministry of Education, Government of India, for receiving the “A” Grade from the National Assessment and Accreditation Council (NAAC). This makes JGU the only private university in the state of Haryana and one of the only two private universities in India to be given the status of autonomy.

In September 2019, JGU was selected as an 'Institution of Eminence' (IOE) by the Government of India, making JGU the only private university in India to be awarded this status.

JGU was ranked in the top 700 universities in the world in the QS World University Rankings 2021 Edition, making it India's No. 1 Private University and India's No. 1 University dedicated to the Social Sciences, Arts and Humanities.

ABOUT JGLS

In 2009, JGU began its first academic session with the establishment of India’s first global law school, Jindal Global Law School (JGLS). JGLS is recognised by the Bar Council of India and offers a three-year LL.B. programme, five-year B.A.LL.B. (Hons) and B.B.A.LL.B. (Hons.) programmes, three-year B.A. Legal Studies (Hons.) programmes, B.A. (Hons.) Human Rights, B.A. (Hons.) Gender Studies, B.A. (Hons.) Criminology & Criminal Justice and a one-year LL.M. programme and a Ph.D. programme in Law. JGLS has research interests in a variety of key policy areas, including:

JGLS has established international collaborations with law schools around the world, including Harvard, Yale, Columbia, Michigan, Cornell, UC Berkeley, UC Davis, Arizona, Oxford, Cambridge and Indiana. JGLS has also signed MoU with a number of reputed law firms in India and abroad, including White & Case, Cyril Amarchand Mangaldas,
ABOUT CPGLS

All the LL.M. and PhD programmes at JGLS are offered under the aegis of the Centre for Post Graduate Legal Studies (CPGLS). The CPGLS at the Jindal Global Law School was established to provide students with quality teaching and learning opportunities thereby creating an intellectually stimulating academic environment with experienced and dedicated faculty committed to provide an excellent and world-class education. The Centre has already commenced with a one-year LL.M. programme, which is the first programme of its kind in India, with specialisations being offered in Corporate and Financial Law and Policy, International Trade and Investment Law, Intellectual Property Rights and Technology Law, Taxation Law, Human Rights Law, Alternative Dispute Resolution, Environmental Law, Energy & Climate Change and General Legal Studies. The general LL.M. programme allows students to choose courses in any area of law that interests them and gives enough flexible options whilst maintaining the rigours of an LLM. CPGLS has received a letter of support from The Permanent Court of Arbitration (PCA), The Hague, Netherlands in 2014.

The faculty at CPGLS has a strong research orientation and the regular LL.M. students are expected to contribute to faculty and research center projects in the university. CPGLS promotes interdisciplinary studies, joint teaching and joint research programmes in partnership with other schools in the university and with partner universities of the O.P. Jindal Global University with which JGU established international collaborations and semester exchange programmes.

With respect to all the programmes under the aegis of CPGLS, the intensive curriculum provides a number of electives on contemporary topics in international and business oriented law streams. The courses and curriculum reflect the contemporary needs of a rapidly changing global legal profession. While the fulfilment of academic credits is the basis for the completion of the programme, there is also a mandatory research component which gives students an opportunity to write on topics of contemporary legal significance.

SPECIAL LECTURES & SEMINARS

Luminaries from the field of Environmental Law & Policy have addressed students of LL.M.

- **Hon'ble Mr. Justice DY Chandrachud**, Judge, Supreme Court of India
- **Hon'ble Mr. Justice Madan B. Lokur**, Judge, Supreme Court of Fiji, Former Judge, Supreme Court of India
- **Hon'ble Mr. Justice Swantanter Kumar**, Former Judge, Supreme Court of India, Former Chairperson, National Green Tribunal
- **Hon'ble Mr. Justice Deepak Gupta**, Former Judge, Supreme Court of India
- **Dr. Archana Negi**, Associate Professor, The Centre for International Politics, Organization and Disarmament of the School of International Studies, Jawaharlal Nehru University (JNU)
- **Adv. Buddy Ranganadhan**, Practicing Lawyer; Supreme Court and High Court
- **Dr. Geentanjoy Sahu**, Associate Professor, Tata Institute of Social Sciences (TISS)
- **Dr. Nilanjan Ghosh**, Director Observer Research Foundation (ORF)
- **Dr. Anamitra Anurag Danda**, Director, Sundarbans Programme, WWF-India
- **Adv. Shawabiq Siddiqui**, Environment Lawyer; Founding Partner, Indian Environment Law Organisation (IELO)
- **Adv. Shilpa Chouhan**, Environment Lawyer; Partner, IELO
- **Adv. Sudhir Mishra**, Founder & Managing Partner, Trust Legal
- **Mr. Venkatesh Raghavendra**, Vice President, Advancement, Safe Water Network, New York, USA Ambassador, American India Foundation Advisor/Trainer, Government of India
MEMBERS OF THE PROGRAMME ADVISORY COMMITTEE (PAC)

Professor (Dr.) C. Raj Kumar  
Vice Chancellor, O.P. Jindal Global University and Dean, Jindal Global Law School

Mr. Ravi Singh  
Secretary General and CEO, WWF India

Professor Mr. Dabiru Sridhar Patnaik  
Registrar, O.P. Jindal Global University

Ms. Moulika Arabhi  
Advisor, Centre for Environmental Law, WWF India

Hon’ble Mr. Justice Michael Wilson,  
Judge, Supreme Court of Hawaii, Honolulu, USA

Professor Dr. Vishwas Devaiah,  
Director, Centre for Post Graduate Legal Studies, Jindal Global Law School

ADMISSION DETAILS

A. Admission to the LL.M. programme shall be based on the performance of one of the following entrance examinations (70% weightage):

1. JSAT-LAW Entrance Test 2022
   Procedure: For online JSAT-India entrance test and any other related information, kindly visit https://lawadmissions.jgu.edu.in/

2. LSAT-India Entrance Test 2022
   Procedure: For online LSAT-India entrance test and any other related information, kindly visit https://www.discoverlaw.in/

3. CLAT-PG Entrance Test 2022
   Procedure: For online CLAT-PG entrance test and any other related information, kindly visit https://consortiumofnlus.ac.in/

B. Applicant shall also provide the following documents (30% weightage):
   • Statement of Purpose; and
   • Curriculum Vitae. (Work Experience and Publication)

FEES*

LL.M. Non-Residential
Application Fee: INR 1,000
Programme Fee: INR 3,50,000

*Subject to yearly revision
International educational collaborations are essential to the global vision of JGU and JGLS. An International Board of Advisors (IBA) provides support to the school in strengthening its international partnerships. Distinguished academics from leading universities, as well as lawyers and other professionals with a commitment to promoting excellence in education are members of the IBA. In addition to the IBA, the JGLS also has an Advisory Council for CPGLS.

Chairpersons of IBA

Professor (Dr.) C. Raj Kumar
Vice Chancellor, O.P. Jindal Global University and Dean, Jindal Global Law School.

Professor Peter H. Schuck
Simeon E. Baldwin Professor Emeritus of Law, Yale Law School.

Members of Advisory Council to the CPGLS

Professor Andrew Guzman
Dean and Carl Mason Franklin Chair in Law, USC Gould School of Law and Professor of Law and Political Science; Visiting Professor, Harvard and University of Chicago Law School.

Professor Randall S. Thomas
John S. Beasley II Professor of Law and Business Director, Law and Business Programme, Professor of Management; Vanderbilt University School of Law and Owen School of Management; Visiting Professor, Harvard and Duke Law School.

Professor Raj Bhala
Brenneisen Distinguished Professor of Law University of Kansas School of Law; Visiting Professor, World Trade Institute, Bern, Switzerland and Advisor, IMF and World Bank.

Professor Gianmaria Ajani
Rector, University of Turin and Dean, Faculty of Law, University of Turin; Director, ILO-Turin LLM in International Trade and Contracts Law and WIPO-Turin LLM in Intellectual Property Rights; Board Member, IGLP, Harvard Law School, International Academy of Comparative Law.

Dr. Edward Kwakwa
Principal Legal Counsel World Intellectual Property Organisation (WIPO), Geneva; Visiting Professor, Graduate Institute of International Studies, Geneva.

Professor Stephen Darryl Girvin
Professor of Law and Director, LLM in Maritime Law Programme, Faculty of Law, National University of Singapore, Singapore.

Professor Joost Pauweleyn
Professor of Law, Graduate Institute of International Studies, Geneva; Visiting Professor, Harvard Law School and Stanford Law School; Former Legal Advisor, World Trade Organisation (WTO).

Mr. Brooks W. Daly
Deputy Secretary General and Principal Legal Counsel, Permanent Court of Arbitration, The Hague; Invited Lecturer (2014), The Renaissance of Inter State Arbitration, The Hague Academy of International Law Visiting Professor, Leiden University School of Law, Leiden.

Professor Stephen W. Mazza
Dean and Professor of Law University of Kansas School of Law; Associate Editor, ABA Section of Taxation News Quarterly.

Professor (Dr.) Ernst-Ulrich Petersmann
Emeritus Professor, Department of Law European University Institute, Florence, Italy.
