

Post Graduate Diploma in Urban Environmental Management and Law

Assignment No. 4 July 2021-22 Batch

Total: 50 Marks

Question 1:

India is facing rapid growth of urbanisation which adds to the risk of vulnerability to handle associated disasters. How do you think we can make our cities disaster resilient in India? Explain with the help of any *four* case studies.

[15 marks, 1200-1500 words]

Question 2:

"The massive influx of people into cities takes place against a background of geopolitical, economic, social and technological developments that together pose new challenges and opportunities for the global human rights regime and the daily lives of people."

Is there any inter-connectedness between urbanisation and human rights? If yes, then justify your answer using examples and if no, then state reasons for your disagreement.

[15 marks, 800-1000 words]

Question 3:

Suggest suitable ways in which waste management can be redesigned and managed in urban areas after the pandemic.

[10 marks, 800-1000 words]

Question 4:

Comment on the state of conservation of any *three* heritage buildings of India and why do you think urban heritage is important and what role does it play?

[10 marks, 800-1000 words]
